

फसल हो दमदार, उत्पादन हो शानदार! चुनें **AGROSTAD**

हर फसल के लिए स्मार्ट कृषि समाधान

Our Vision

To be India's trusted agricultural partner, delivering innovative solutions for sustainable farming and healthier crops.

Our Mission

To empower farmers with quality agricultural solutions for better crop health, higher yields & lasting success.

The Values We Grow With

- ✓ Innovation
- ✓ Sustainability
- ✓ Quality
- ✓ Trust

About AgroStad - Growing the Future of Agriculture

Agriculture is the foundation of a prosperous future, and every healthy crop starts with the right protection and nutrition. At AgroStad Insecticide Corporation, we stay focused on advanced agricultural solutions, they help farmers deal with field challenges, with confidence.

With a growing portfolio of scientifically developed products, we provide reliable answers for crop defense, plant growth management and plant nutrition. Our aim is to deliver consistent quality, dependable performance, and those innovative technologies that lead to healthier crops and better harvests.

Germanstad

Germanstad is an insecticide and acaricide formulated with Abamectin 1.9% EC for effective control of mites and a wide range of insect pests. Its translaminar action provides quick knockdown and long-lasting protection by penetrating leaf tissue, helping maintain healthy crop growth and improved crop performance.

- **Formulation:** EC (Emulsifiable Concentrate)
- **Active Ingredient:** Abamectin 1.9%
- **Mode of Action:** Insecticide / Acaricide
- **Packing:** 1ltr, 500ml, 250ml, 100ml

Gadarstad

Gadarstad is basically an insecticide, made using Emamectin Benzoate 1.9% EC, it is used for strong suppression of caterpillars and larval pests across multiple crops, it's kinda designed for that purpose. It works in a pretty dependable way by zeroing in on pests at their early growth phase, so crop development stays steady, and crop quality plus yield can improve.

- **Formulation:** EC (Emulsifiable Concentrate)
- **Active Ingredient:** Emamectin Benzoate 1.9%
- **Mode of Action:** Insecticide
- **Packing:** 1 ltr, 500ml, 250ml, 100ml

Corastad

Corastad is an insecticide made with Chlorantraniliprole 18.5% SC, it's used to handle lepidopteran pests like caterpillars and borers across many kinds of crops. This formulation supports persistent crop protection, because it suppresses the target pests quite well, and it also supports better plant vigor, so it helps maintain crop quality, and yield.

- **Formulation:** SC (Suspension Concentrate)
- **Active Ingredient:** Chlorantraniliprole 18.5%
- **Mode of Action:** Insecticide
- **Packing:** 300ml, 150ml, 60ml, 30ml

Tolfenstad

Tolfenstad is an insecticide formulated with Tolfenpyrad 15% EC, designed to provide effective control of a range of insect pests affecting crops. Its insecticidal action helps suppress damaging pests, protect crop health, and support better crop growth and productivity under field conditions.

- **Formulation:** Emulsifiable Concentrate (EC)
- **Active Ingredient:** Tolfenpyrad 15%
- **Calcium Dodecyl Benzyl Sulphonate:** 3.0% w/w
- **Tristyryl Phenol Ethoxylate:** 7.00% w/w
- **Tolfenpyrad:** 15.0% w/w
- **Solvent C-IX:** Q.S.
- **Total:** 100% w/w
- **Packing:** 1 Litre, 500ml, 250ml

Herbicide

Parastad

Parastad is a contact herbicide formulated with Paraquat Dichloride 24% SL for effective control of broadleaf and grassy weeds. Its fast-acting, non-selective formulation provides quick weed desiccation, helps maintain cleaner crop fields, and supports efficient weed management for improved field operations.

- **Formulation:** SL (Soluble Liquid)
- **Active Ingredient:** Paraquat Dichloride 24%
- **Mode of Action:** Contact Herbicide
- **Packing:** 5ltr, 1ltr, 500ml, 250ml

Weedstad Super

Weedstad Super is a selective systemic herbicide formulated with Quizalofop-Ethyl 10% EC for effective control of grassy weeds in a variety of crops. Its fast absorption and translocation action provide reliable, long-lasting weed management while supporting healthy crop growth and improved field performance.

- **Formulation:** EC (Emulsifiable Concentrate)
- **Active Ingredient:** Quizalofop-Ethyl 10%
- **Mode of Action:** Systemic Herbicide
- **Packing:** 1ltr, 500ml, 250ml, 100ml

Glystad-71

Glystad-71 is a systemic herbicide formulated as the Ammonium Salt of Glyphosate 71% SG for effective control of annual, perennial, broadleaf, and grassy weeds. Its systemic action ensures rapid absorption and translocation for deep, long-lasting weed control, helping maintain clean cultivation areas and non-cropped land.

- **Formulation:** SG (Soluble Granule)
- **Active Ingredient:** Ammonium Salt of Glyphosate 71%
- **Mode of Action:** Systemic Herbicide
- **Packing:** 100 gm

Fungicides

Klassen

Klassen is a systemic fungicide, made up with Azoxystrobin 11% + Tebuconazole 18.3% SC, for strong handling of fungal diseases in crops. It provides protective and "heal after" action, meaning both preventive and curative support with broad-spectrum performance, so plants stay vigorous and the overall growth stays stable. This long lasting systemic effect also helps with improved crop quality and productivity.

- **Formulation:** SC (Suspension Concentrate)
- **Active Ingredient:** Azoxystrobin 11% + Tebuconazole 18.3%
- **Mode of Action:** Systemic
- **Products Packing:** 1lt, 500ml, 250ml, 100ml

Kalikishan

Kalikishan is a broad-spectrum systemic fungicide containing Azoxystrobin 4.8%+ Chlorothalonil 40.0% SC. Its advanced formulation provides preventive, protective, systemic, and contact action against a wide range of fungal threats, offering long-lasting crop protection and supporting healthy plant growth and improved crop performance.

- **Formulation:** SC (Suspension Concentrate)
- **Active Ingredient:** Azoxystrobin 4.8% + Chlorothalonil 40.0%
- **Mode of Action:** Systemic & Protective
- **Products Packing:** 1.5 ltr, 600ml, 300ml

Azoxystad

Azoxystad is a systemic fungicide containing Azoxystrobin 18.2% + Difenoconazole 11.4% SC. Its dual-action formulation provides broad-spectrum, preventive and curative protection against a wide range of fungal diseases, offering long-lasting systemic coverage while supporting healthy crop development, better crop quality, and improved productivity.

- **Formulation:** SC (Suspension Concentrate)
- **Active Ingredient:** Azoxystrobin 18.2% + Difenoconazole 11.4%
- **Mode of Action:** Systemic
- **Packing:** 1ltr, 500ml, 250ml, 100ml

Plant Growth Regulators

Paclostad

Paclostad is a Plant Growth Regulator containing Paclobutrazole 40% SC, used to control excessive vegetative growth and promote balanced plant development. Its systemic action helps manage canopy growth, improve flowering and fruit setting, support uniform crop growth, and enhance crop quality and productivity for better harvest performance.

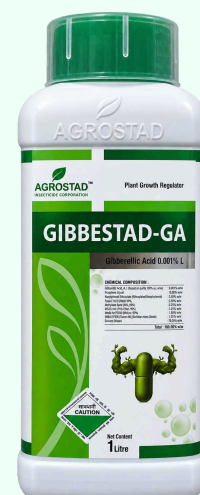

- **Formulation:** SC (Suspension Concentrate)
- **Active Ingredient:** Paclobutrazole 40% w/w
- **Mode of Action:** Systemic Plant Growth Regulator (PGR)
- **Packing:** 1ltr, 500ml, 250ml, 100ml

Gibbestad-GA

Gibbestad-GA is a Plant Growth Regulator containing Gibberellic Acid 0.001% L that promotes natural plant growth, cell elongation, flowering and fruit development. It supports better crop quality, productivity, growth and yield in Paddy, Cotton, Sugarcane, Groundnut, Brinjal, Bhindi, Grapes and other horticultural crops.

- **Formulation:** L (Liquid)
- **Active Ingredient:** Gibberellic Acid 0.001% a.i. (w/w)
- **Mode of Action:** Plant Growth Regulator (PGR)
- **Packing:** 1 Litre, 500ml, 250ml, 100ml

Nutristad Macromix

Nutristad Macromix is a liquid fertilizer with NPK 11:11:08 enriched with Zinc & Boron, providing balanced nutrition throughout the crop growth cycle. Its suspension formulation supports stronger roots, better nutrient absorption, healthy growth, flowering, fruit setting, and improved crop yield and quality.

- **Formulation:** Liquid Fertilizer (Suspension)
- **Active Nutrients:** NPK 11:11:08 Fortified with Zinc & Boron
- **Phosphorus (P_2O_5):** 11.0%
- **Packing:** 1 Ltr, 500ml, 250ml, 100ml
- **Potassium (K_2O):** 8.0%
- **Zinc (Zn):** 0.7%
- **Boron (B):** 0.5–0.7%
- **Nitrogen (N):** 11.0%

Calstad

Calstad is a liquid fertilizer fortified with Calcium, Boron, and Zinc. It strengthens cell walls, supports flowering and fruit development, improves nutrient utilization and crop quality, reduces nutrient deficiencies, and promotes stronger plants and better yield across various crops.

- **Formulation:** Liquid Fertilizer
- **Active Nutrients:** Calcium, Boron & Zinc
- **Calcium (Ca):** 21.0%
- **Boron (B):** 0.1%
- **Zinc (Zn):** 1.5%
- **Specific Gravity:** 1.74–1.76
- **pH:** 8.5–10.0
- **Packing:** 1 Ltr, 500ml, 250ml, 100ml

Zincstad

Zincstad is a micronutrient fertilizer built on Zinc Oxide Suspension Concentrate 39.5% Zn, used to manage zinc deficiency, and also to back firm crop growth. The micronized suspension formulation helps the nutrients get taken in more properly, supports the formation of chlorophyll, encourages stronger root growth, helps in blossoming plus fruit setting, and adds to overall plant steadiness, strength, and productivity across many crops.

- **Formulation:** Liquid Micronutrient Fertilizer
- **Active Ingredient:** Zinc Oxide Suspension Concentrate
- **Application Method:** Foliar Spray, Drip Irrigation & Fertigation
- **Packing:** 1 Litre, 500gm, 250gm, 100gm | **PH (5% Solution):** 9.0 ± 1
- **Specific Gravity:** 1.71–1.75 | **Zinc (Zn):** 39.5%

Potastad

Potastad is a liquid fertilizer made from Potassium Thiosulphate ($K_2S_2O_3$), supplying potassium and sulphur for healthy crop development. Its highly soluble formulation supports better nutrient absorption, root growth, flowering, fruit quality, and overall productivity. It can be used through fertigation, drip irrigation, and foliar application for balanced crop nutrition.

- **Formulation:** Liquid Fertilizer | **Arsenic (As):** 0.001% maximum
- **Active Ingredient:** Potassium Thiosulphate ($K_2S_2O_3$)
- **Water Soluble Potassium (as K_2O):** 25.0% minimum
- **Sulphur (as S):** 17.0% minimum | **Specific Gravity (at 25°C):** 1.45–1.49
- **Packing:** 1 Litre, 500ml, 250ml, 100ml | **Lead (Pb):** 0.001% maximum

Borostad

Borostad is a Micronutrient Fertilizer containing Boron Ethanolamine, formulated to manage boron deficiency and support healthy crop growth. It promotes flowering, fruit setting, stronger cell walls, and better nutrient movement, helping improve crop quality, yield, and balanced plant development.

- **Formulation:** Liquid Micronutrient Fertilizer
- **Active Ingredient:** Boron Ethanolamine
- **Boron (as B):** 10.0% minimum
- **pH:** 8.5 ± 1 | **Specific Gravity:** 1.3 – 1.4
- **Lead (Pb):** 0.003% maximum
- **Arsenic (As):** 0.001% maximum
- **Cadmium (Cd):** 0.0025% maximum
- **Packing:** 1 Ltr, 500ml, 250ml, 100ml

Mycostad

Mycostad is a Mycorrhizal Biofertilizer formulated to support healthy root development, improve nutrient uptake, and enhance overall crop growth. It helps increase root activity and fertilizer-use efficiency while supporting better plant establishment and crop performance under different field conditions.

- **Formulation:** Mycorrhizal Biofertilizer
- **Type:** Granular Biofertilizer | **pH:** 5.0–7.0 | **Packing:** 4 Kg
- **Total Viable Spores:** Minimum 10 million spores/g of finished product
- **Inoculum Potential:** 1200 IP/g of finished product by MPN method with 10-fold dilution

Mycostad Gold

Mycostad Gold is a Mycorrhizal Biofertilizer formulated to support stronger roots, better nutrient uptake, and healthy crop growth. It improves access to soil nutrients, fertilizer use efficiency, and plant resilience, supporting better crop establishment, grain filling, and overall yield.

- **Formulation:** Mycorrhizal Biofertilizer
- **Total Viable Spores:** Minimum 10 spores/g
- **Inoculum Potential:** 1200 IP/g
- **Packing:** 100 g | pH: 5.0–7.0

Potash 2020 Gold

Potash 2020 Gold is an organic fertilizer containing natural Rhodophytes seaweed extract, enriched with water-soluble potash and organic nutrients. Its readily absorbable formulation supports nutrient movement, healthy growth, flowering, fruit development, and better crop performance under water stress and demanding conditions.

- **Formulation:** Organic Fertiliser
- **Potash Source:** Rhodophytes
- **Active Nutrient:** Potash
- **Product Type:** Organic Fertiliser
- **Product Packing:** 100 g

Adjuvant

Superstad

Superstad is a Silicone-Based Super Spreader & Activator that improves spray spreading, coverage, penetration, and adhesion. It enhances the effectiveness of insecticides, fungicides, herbicides, fertilizers, PGRs, and bio-products while minimizing spray losses and helping reduce residue buildup in drip irrigation systems.

- **Formulation:** Silicone Based Super Spreader & Activator
- **Polyethylene Glycol:** 25% | **Polyoxyethylene:** 10% | **Ethanol:** 25% | **Water:** 40%
- **Mode of Action:** Spray Adjuvant / Spreader / Sticker / Activator
- **Recommended Dosage:** 3–5 ml per 15 Ltr of Water | **Packing:** 1 Ltr, 500ml, 250ml, 100ml

Fenstad

Fenstad is a Bio-Stimulant, formulated with Protein Hydrolysate 16.9% (Plant Source), to support healthy plant growth. It helps improve nutrient uptake, and supports stronger crop development too. Since it is plant based, it helps boost root activity, supports balanced vegetative growth, and encourages better crop performance under different field situations.

- **Formulation:** Liquid Bio-Stimulant
- **Source:** Glycine max & Zea mays
- **Free Amino Acids:** 6.3% minimum
- **pH (10% aqueous solution):** 4–6
- **Solubility:** 98.58% minimum
- **Packing:** 1 L, 500 ml, 250 ml, 100 ml

Homostad

Homostad is a Bio-Stimulant, formulated with Homobrassinolide 0.04% (Liquid) to help healthy plant growth, support improved crop development, and better productivity. Its advanced formulation helps boost plant vigor, supports flowering plus fruit development, improves crop quality and promotes balanced growth through different stages of cultivation.

- **Formulation:** Liquid Bio-Stimulant
- **Active Ingredient:** Homobrassinolide 0.04%
- **Packing:** 250ml, 100ml, 50ml
- **pH (10% aqueous solution):** 8.30 – 8.50
- **Specific Gravity:** 0.75 – 0.95
- **Solubility:** 99.7% minimum
- **Source:** Synthetic

Humistad

Humistad is a Bio-Stimulant formulated with Humic Acid 6% to support improved soil health, nutrient availability, and balanced plant growth. Its advanced formulation helps enhance root development, improves nutrient absorption, supports plant vigor, and promotes healthier crop performance under different agricultural conditions.

- **Formulation:** Liquid Bio-Stimulant
- **Active Ingredient:** Humic Acid 6%
- **Humic Acid:** 0.30% minimum
- **Fulvic Acid:** 0.40% minimum
- **Organic Carbon:** 0.93% minimum
- **pH (1% aqueous solution):** 7.0 – 9.5
- **Packing:** 1ltr, 500ml, 250ml
- **Solubility:** 100%

Sisu

Sisu is a Bio-Stimulant, formulated with Spirulina 10% to support healthy plant growth, improved crop vigor, and better productivity. Its nutrient rich formulation helps enhance plant development, supports stronger growth during critical stages, and promotes improved crop performance under different farming situations.

- **Formulation:** Liquid Bio-Stimulant
- **Active Ingredient:** Spirulina 10% (Lug)
- **Protein Content:** 6% minimum
- **pH (1% aqueous solution):** 6.0 – 9.0
- **Specific Gravity:** 1.00 – 1.10
- **Solubility (as suspension):** 80% minimum
- **Packing:** 1ltr, 500ml, 250ml, 100ml

Aminstad

Aminstad is a Bio-Stimulant formulated with Protein Hydrolysate (Amino Acids 10%) from plant sources to support healthy plant growth, improved nutrient utilization, and enhanced crop performance. Its amino acid-based formulation helps improve plant vigor, supports balanced vegetative growth, and promotes better crop development during critical growth stages.

- **Formulation:** Liquid Bio-Stimulant
- **Source:** Maize Seeds / Grains
- **Free Amino Acids:** 10% minimum
- **pH (5% aqueous solution):** 2.5 – 3.5
- **Specific Gravity:** 1.15 ± 0.03
- **Packing:** 1ltr, 500ml, 250ml

Maxxis

Maxxis is a Bio-Stimulant formulated with Ascophyllum nodosum Seaweed Extract 15%(Liquid) to support healthy plant growth, improved nutrient utilization, and enhanced crop performance. Its seaweed-based formulation helps promote root development, supports balanced vegetative growth, improves plant vigor, and contributes to better crop quality and productivity.

- **Formulation:** Liquid Bio-Stimulant
- **Mannitol:** 1.0% minimum
- **Organic Carbon:** 5.0% minimum
- **Active Ingredient:** Ascophyllum nodosum 15% (Liquid)
- **pH (10% aqueous solution):** 4.7 ± 1.0
- **Specific Gravity:** 1.0 – 1.1
- **Alginate Acid:** 1.5% minimum
- **Solubility:** 99.46% minimum
- **Packing:** 1ltr, 500ml, 250ml

Humistad-90

Humistad-90 is a Bio-Stimulant formulated with Potassium Humate 49% to support improved soil health, nutrient availability, and balanced crop growth. Its humic-based formulation helps enhance root development, improves nutrient absorption, supports plant vigor, and contributes to better crop performance under different agricultural conditions.

- **Organic Carbon:** 38% minimum
- **pH (1% aqueous solution):** 6.6 – 6.8
- **Bulk Density:** 0.8 – 1.1 g/cc
- **Packing:** 1kg, 500gm, 250gm
- **Formulation:** Powder Bio-Stimulant
- **Source:** Leonardite
- **Humic Acid:** 21% minimum

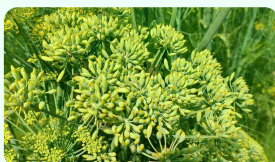

Carbostad

Carbostad is a Bio-Stimulant formulated with Seaweed Extract, Humic & Fulvic Acid, Amino Acids, and Vitamins to support healthy crop growth and improved plant performance. Its advanced formulation helps enhance nutrient uptake, supports root and vegetative development, improves plant vigor, and promotes better crop quality and productivity under different farming conditions.

- **Formulation:** Liquid Bio-Stimulant
- **Glycine:** 10% minimum
- **Potassium Humate:** 10% minimum
- **Humic Acid:** 9.89% minimum
- **Fulvic Acid:** 0.31% minimum
- **Vitamin C:** 2.0% minimum
- **pH (1% aqueous solution):** 8.70 ± 0.2
- **Specific Gravity:** 1.0097 ± 0.03
